Docwriter FreeType FreeType API
.

pip install docwriter (virtualenv (4)).
Python >= 3.5 .

1. pip docwriter .

2. .

3. FreeType .

```
sh autogen.sh
./configure
make refdoc
```

4. 1 make make refdoc-venv .
.
.

1. .

2. .

3. pip install -r requirements.txt (virtualenv).

4. include/ freetype docwriter .

5. docwriter :

```
python -m docwriter                    \
       --prefix=ft2                    \
       --title=FreeType-2.13.1         \
       --site=reference                \
       --output=./docs                 \
```

```
        ./include/freetype/*.h            \
        ./include/freetype/config/*.h     \
        ./include/freetype/cache/*.h
```

docs/markdown/   .   docs/   mkdocs
              .   Mkdocs   .

```
docwriter [-h] [-t T] -o DIR [-p PRE] [-s DIR] [-q | -v] files [files ...]

DocWriter Usage information

positional arguments:
  files                 list of source files to parse, wildcards are allowed

optional arguments:
  -h, --help            show this help message and exit
  -t T, --title T       set project title, as in '-t "My Project"'
  -o DIR, --output DIR  set output directory, as in '-o mydir'
  -p PRE, --prefix PRE  set documentation prefix, as in '-p ft2'
  -s DIR, --site DIR    set 'site_dir' in mkdocs.yml [default=site]
  -q, --quiet           run quietly, show only errors
  -v, --verbose         increase output verbosity
```

              Python   :

1. tox   :

```
pip install tox
```

2.   Python   .

3.   .

                        ''-e''   .   .

```
<code bash>
tox -e py37,py38
```

         Python 3.7   3.8   (   ).
     tox.ini   .

tox .

, git FreeType .
Gitlab CI :

```
tox -e regression
```
